

About Tomorrow Together

“Tomorrow Together” is a new five-year initiative, supported by a diverse community of national service, youth, faith and education organizations, to actively promote the ideals of unity, empathy and service among young people throughout the United States.

"Tomorrow Together" officially launches on September 11, 2016, in observance of the 15th anniversary of 9/11.

Those who join "Tomorrow Together" are expressing their support for the mission of unity, and are committed to individually incorporating into their programs, however they see fit, activities and teachings that help young people understand and develop the skills necessary for empathy, peace and togetherness, with charitable service as an important program element.

While many "Tomorrow Together" programs may launch or be timed annually to coincide with the anniversary of the 9/11 attacks, “Tomorrow Together” is meant to be an on-going, long term program to instill the values of unity and cultivate a new generation of empathetic change makers.

To add your organization's name to the coalition, and access our free toolkits and resources, please visit 911day.org.
